

EASY OVER . . . Although the top of this car was badly smashed when it flipped over on Del Amo Blvd. at Henrietta St. Monday, neither the driver, Vernor Walter Harrison, 50, 3935 Torrance Blvd., nor the three children in the car with him were injured. All crawled out through a window. Here, officer A. L. Jackson and Harrison survey the damage to the vehicle.

City's Traffic Problems Studied by THS Students

"Traffic in Torrance" flow patterns, parking, how to properly regulate the flow of automobiles into our city so as to meet the demands of merchants and citizens—has been the topic of study by a class of students taught by Howard Towle, a teacher of Torrance High School.

Towle's students became so interested in this particular problem that they evolved a series of questions to be asked of merchants, city officials, and parents and teachers.

Questions Answered

The students contacted Mayor Albert Isen for an answer to several of their questions. Mayor Isen met with representatives of the class to give answers to the questions raised by the students. The students recorded their conversation with the mayor on a tap recorder. This recorded conversation will be played back to the class so that all the students may share in the answers to the questions the students prepared.

Work Praised

Towle, a World Heritage teacher, said this project has generated a high degree of interest and has motivated the students to intensely study the factors affecting traffic patterns in and around Torrance. This project has truly increased the students' knowledge of

Will Begin Fund Drive

The Council of Administration of the Hope Evangelical United Brethren Church, 3343 W. 174th St. voted to launch a \$48,000 fund-raising program for new educational facilities for the 200 member congregation.

Rev. Monrad Bergesen revealed that the church-wide drive is scheduled to begin as soon as a general chairman and other key organizational leaders are picked. One unique feature of the program is that

cash gifts are not solicited. Members will be asked to pledge funds payable over a 150-week period. The present Hope Church structure was built in 1956.

Chest Group Reaches Goal

The first residential division of volunteers soliciting for the current 1957-58 Community Chest campaign in the entire Los Angeles Area to go "over the top" was Division 754 headed by Mrs. Anthony Greco, 733 W. 146th St., Gardena. After two hours of solicitation on Monday evening Nov. 4, the opening day of the campaign, Mrs. Greco's division had topped their quota of \$727 and collected \$755.74. Only four out of the seven sections in the division had reported at that time.

FISH SURVIVAL

Some types of fish can survive being frozen in ice but the length of time they are frozen and the conditions under which the ice melts away are important factors in their survival.
